**To the “Corrected Version of the Decision Granting the Request of the Trust Fund
for Victims of 21 September 2020 and Approving the Implementation of Service-
based Collective Reparations”**

Explanatory note

On 14 December 2020, the Chamber delivered the “*Décision faisant droit à la requête du Fonds au profit des victimes du 21 septembre 2020 et approuvant la mise en œuvre des réparations collectives prenant la forme de prestations de services*”¹ (“Decision of 14 December 2020”). On 4 March 2021, the Chamber issued a public redacted version of that decision.²

The Chamber observes that in paragraph 50 of both the Decision of 14 December 2020 and the public version of that decision, it refers to 76 instead of 77 new applications for reparations. The Chamber therefore corrects paragraph 50 of the Decision of 14 December 2020 and the public redacted version of that decision as follows:

“[TRANSLATION] On 1 December 2020, the Chamber approved the Board of Directors’ administrative decisions on **77** new applications for reparations.”

The Chamber observes that in paragraph 106 of both the Decision of 14 December 2020 and the public redacted version of that decision, it referred to 620 instead of 508 administrative decisions and a total number of 1045 instead of 933 victims entitled to collective reparations in the instant case. The Chamber therefore corrects paragraph 106 of the Decision of 14 December 2020 and the public redacted version of that decision as follows:

“[TRANSLATION] The Chamber has thus far approved **508** administrative decisions of the Trust Fund on new applications for reparations. The number
